

A. Figure 3A polytroubles

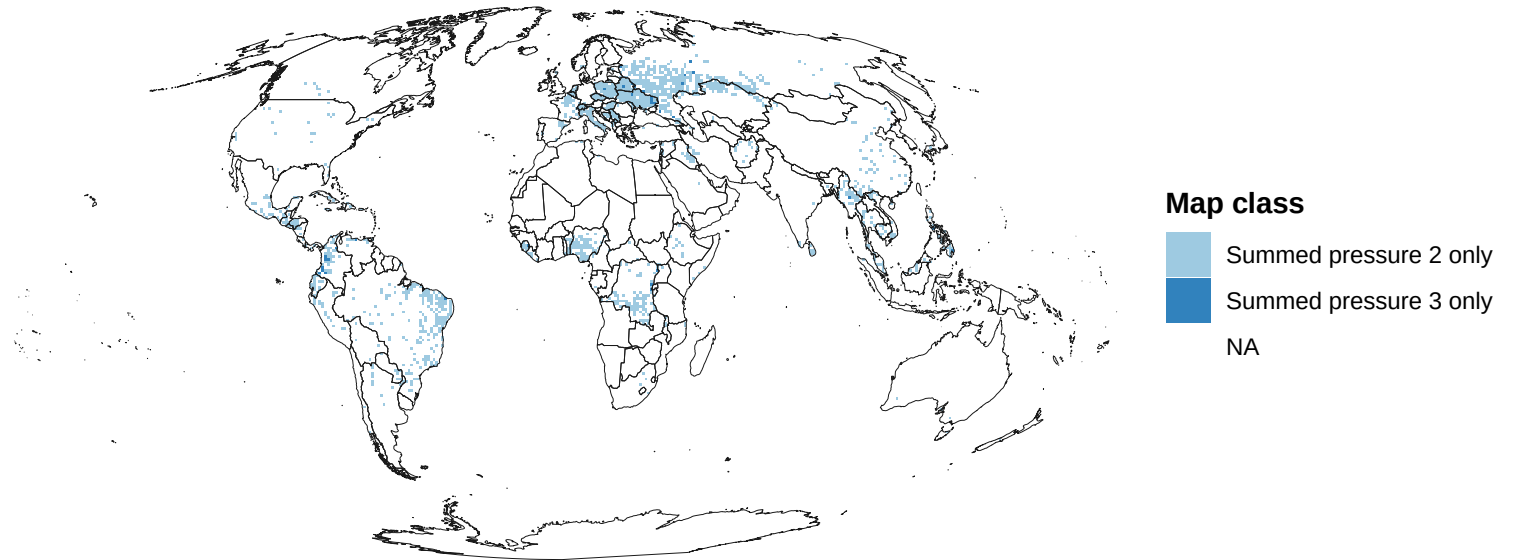

Observed EID top 5%, summed pressure, and overlap shown as separate classes

White cells indicate summed–binary classes 0, 1, 4, or NA with no highlighted overlap. Green classes show overlap.

B. Figure 3B polytroubles

Bias–corrected EID top 5%, summed pressure, and overlap shown as separate classes using the same palette as Fig

White cells indicate summed–binary classes 0, 1, 4, or NA with no highlighted overlap. Green classes show overlap.
